

Medi-*e*mr

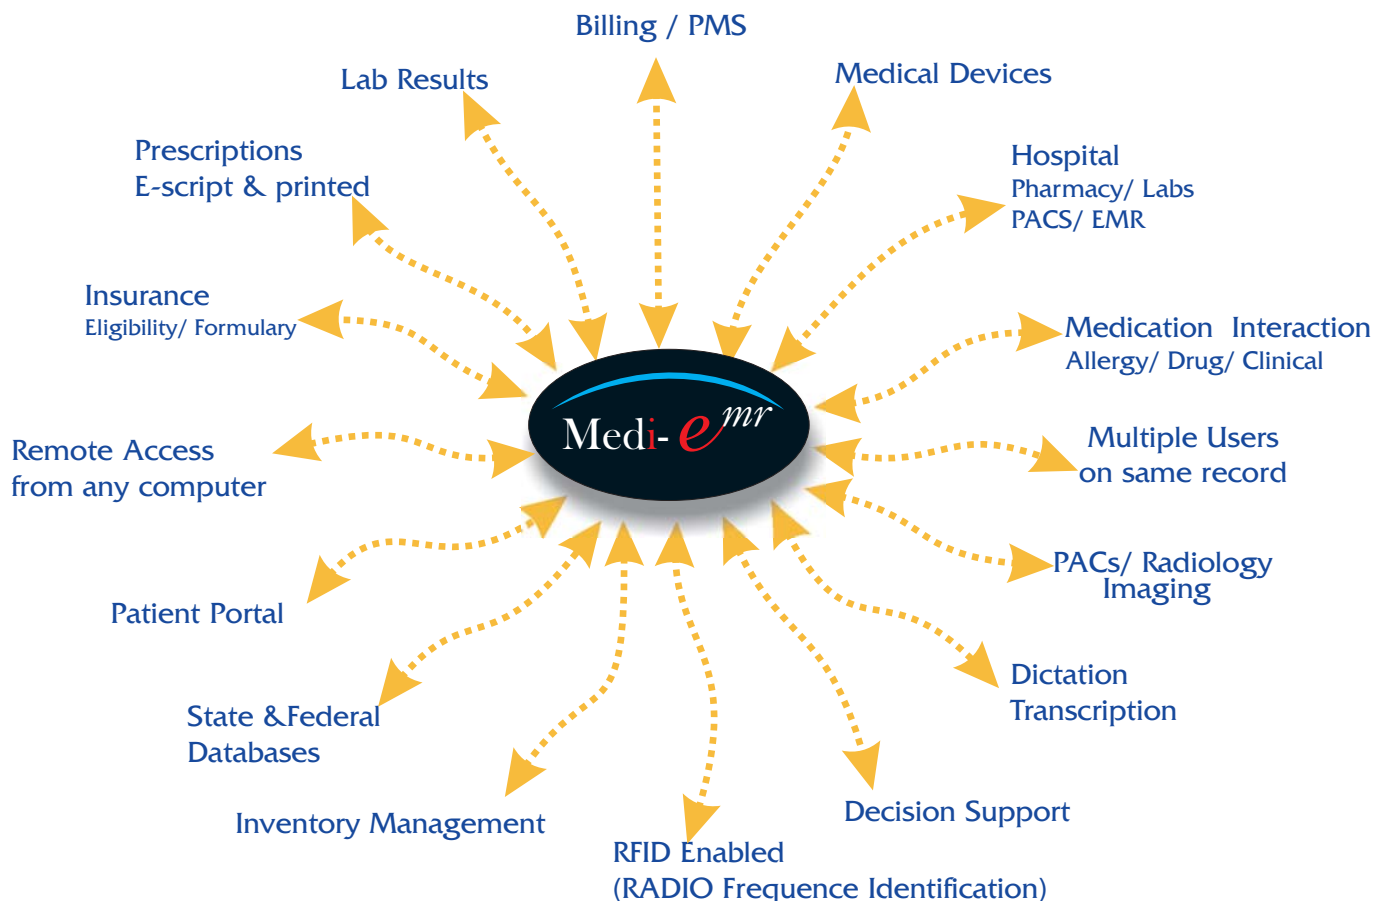

The Complete EHR Solution

Integration

Today, business and technology are changing at a rapid pace in response to customers, partners, competitors, and legislative demands. IT and applications must be kept current to facilitate required change, not inhibit growth. Application integration refers to the plans, methods, and tools aimed at modernizing, consolidating,

and coordinating the computer applications in an enterprise. The Medi-EMR delivers complete Integration with all systems, today and in the future.
