

DATA

Medi-*e*mr

The Complete EHR Solution

The data belongs to you.

We contractually allow you to extract and download your patient EMR data, either as-needed, on a regular schedule, or upon contract conclusion.

You have to option of extracting your data from Medi-EMR in many industry standard formats, which currently include:

- XML
- HL7
- X12
- Flat-File (*.txt)
- Spread Sheet (*.csv)
- Web-Archive (*.mht)
- PDF
- PostScript

A combination of the above formats will allow you to transfer the information to an EMR platform that supports data importing, or to simply store on your office PC for safekeeping.

Medi-EMR Escrow Services Policy

We can also arrange for storage of the data and/or software in an escrow service account controlled by an Attorney.
